|--|--------|
| Garmin BlueChart g3 preloaded U.K. Update card (4) | 129.99 |
|--|--------|

Chart update and upgrade options

Upon registration all **Navionics** and **Garmin Navionics** chart cards have a subscription to a year of daily, downloadable updates.

Navionics options:

- Use your old Navionics card (any type) to activate a Navionics+ Updates card (see **1** and **2**)
- For cards from another brand - use it to activate a Navionics+ Updates card (see **1**)

Other options available only via the Chart Installer. If unsure, call us for further guidance.

Garmin options:

- If your plotter has a built-in chart (i.e. no chart card), buy a Garmin preloaded update card - see **3** and **4** above
- Exchange your old card and save up to 50% on a new card with a subscription to updates.

If unsure, call us for advice on your best update option.
